The best for logistics *by FROMM*

Your ideal partner for logistics packaging

The strength of FROMM Automated Packaging Solutions is based on our extensive experience in transport packaging, since 1947. Our automatic strapping and stretch film systems can easily be integrated into complete packaging lines or work independently. State-of-the-Art 3D technologies, enable customized solutions for any type of industry.

1. Solution-oriented consulting by, globally operating, experienced and qualified FROMM experts, giving the best possible solutions.
2. Development of suitable Intelligent concepts, using state-of-the-art software and programming.
3. Complete, robust, highly reliable machines and systems. They meet or exceed the highest quality standards of today's industry.
4. Flexible Integration into existing or new customer systems, creating chains of intelligence and sources information.
5. With innovative 3D detailed design and simulation programs, we ensure that everything fits and works as intended from start-up and afterwards.
6. Rapid system start-up, through Intelligent planning and smooth acceptance procedures. The basis of fast and trouble-free commissioning.
7. Extensive training of customer staff and operators with user-friendly operating instructions that enable your employees to work pleasantly and efficiently.
8. Instruction and planning in prepared maintenance of customer maintenance personnel, with professional project documents and schedules.
9. Interactive remote observation and worldwide delivery of spare parts, aimed at minimizing system downtime due to service and maintenance work.
10. Expansion of system functions through Intelligent accessory technologies and data management.
